EXECUTIVE SUMMARY

A motivated and detail-oriented Computer Science student passionate about front-end development. Skilled in HTML, CSS and Javascript, with hands-on experience through academic and personal projects. Eager to contribute to a dynamic development team, apply modern web development practices, and continue learning new technologies in a collaborative environment.

Personal Project

2024-05-01 - 2024-08-01

AI/Computer Vision Developer

No-Parking Vehicle Detection System - Engineered an intelligent parking enforcement system leveraging computer vision and machine learning to automate violation detection in restricted zones.

- Developed real-time vehicle detection algorithm using Python, OpenCV, and NumPy, achieving 85%+ accuracy in identifying unauthorized parking

Personal Project

2025-03-01 - 2025-03-01

Computer Vision & HCI Developer

Air Canvas - Gesture-Based Drawing Application - Created an innovative digital drawing platform utilizing gesture recognition technology to enable touchless artistic creation through hand motion tracking.

- Built computer vision pipeline using Python and OpenCV to capture and interpret real-time hand gestures with 90% tracking accuracy

Personal Project

2026-03-01 - 2026-04-01

Front-End Developer

Digital Complain System with Resolution Tracking - Citizens can submit complaints online and track their progress in real time (pending → in-progress → resolved).

- Ensures transparency and accountability by recording resolution actions and timelines.

SKILLS

Web Development: Responsive Web Design, RESTful APIs, Front-End Development

AI/ML Technologies: Machine Learning, Computer Vision, OpenCV, NumPy, K-Nearest Neighbors (KNN)

Development Tools & Platforms: Git, GitHub, VS Code, Eclipse

Programming & Development: Python, Java, JavaScript, C, Ruby, HTML5, CSS3

Soft Skills: Problem-Solving, Fast Learner, Team Collaboration, Technical Communication, Adaptability, Time Management

Technical Concepts: Algorithm Design, Data Structures, Object-Oriented Programming, Agile Methodologies

EDUCATION

Bachelor of Technology

Sree Chaithanya College of Engineering

Diploma

Jyothishmathi Institute of Technology and Science

Secondary School Certification

Kakatiya High School

CERTIFICATIONS

Machine Learning Foundation

AI for ALL

Basics of Java Programming

Fundamentals of Artificial Intelligence Guided Path

K-Nearest Neighbors (KNN) Algorithm in Python and R

Critical Thinking in the AI Era

CyberWalNet Certificate in Cyber Awareness & Digital Hygiene
